

SPEED CALIBRATOR

Queste tabelle permettono di identificare senza fatica la configurazione corretta degli interruttori del vostro speed calibrator. Una volta identificata la correzione da apportare basterà leggere sulla tabella sottostante la configurazione corrispondente degli interruttori. I primi due valori corrispondono a delle "xx" in quanto la loro scelta non è legata alla correzione ma ad altre configurazioni per le quali si rimanda alle istruzioni dello speed calibrator.

(1) Per maggiori dettagli si vedano le istruzioni dello Speed Calibrator

CORREZIONE POSITIVA
